

A Variety of High-Performance Insulation Products

BOX LINER

- Made to fit six-sided containers
- Arrives compact and collapsed
- Gusseted, leak-proof bottom
- Peel-and-seal adhesive lip closure (Optional)
- We specialize in custom sizes

ENVELOPE/MAILER/POUCH

- One-piece, drop-in design
- Leak-resistant, water-tight bottom
- Peel-and-seal adhesive lip closure (Optional)
- We specialize in custom sizes

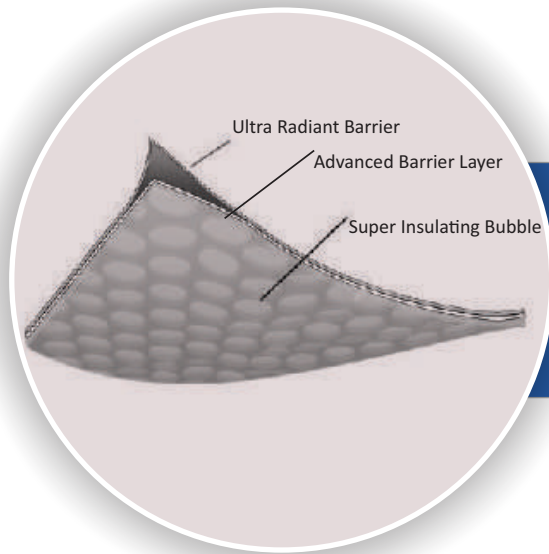

PALLET COVER

- Protect against extreme hot and cold temperatures
- Arrives folded with space-saving design
- Easy to apply, saves labor
- Peel-and-seal adhesive lip closure (Optional)
- Low-cost and single-use
- Effective light and UV protection

ROLL STOCK

- Protect against extreme hot and cold temperatures
- Easy to apply
- Easy to customize, trim to fit
- Effective light and UV protection

CROSS SECTION OF COOLINER

HIGH-PERFORMANCE INSULATED MATERIAL

- Made from metalized polyester (PET) laminated to low-density polyethylene (LDPE) bubbles - 3/16" thick
- Various gauges available: Light Duty, Heavy Duty, White, and Double Layer
- Operating temperature: -120°F to 240°F (-84°C to 115°C)

FEATURES

- Non-toxic flexible materials
- Cost-efficient
- Made of 100% sustainable thermoplastic materials
- Extremely space efficient
- Peel-and-seal adhesive lip closure (optional)
- Leak-resistant design

APPLICATIONS

Suitable for helping maintain refrigerated and room temperature from hot and cold ambient temperatures
