

# Refrigerant Gel Packs

**High performance cold packs with various external coverings suitable for different applications.**

---

Made of water and sodium polyacrylate gel encased in LDPE plastic, our refrigerant cold packs provide a cost-effect method of keeping your shipment cold throughout the entire shipping duration.

They're perfect for shipping food, pharmaceuticals and any other temperature sensitive items.

## **DIRECT TO CONSUMER**

Printed with safety labeling to ensure safe use

## **SWEAT PROOF**

Featuring an advanced layered casing that minimizes condensation

## **INDUSTRIAL**

Built with a tough, recyclable outer casing that resists tears and punctures

## **DRAIN FRIENDLY**

Non-toxic gel packs made with contents that can be safely disposed with running water, and plastic that can be recycled curbside

## FEATURES:

Proven to keep shipment colder for longer

Tough, durable outer casing

Reusable

Available in custom sizes
