Our **Refrigerant Gel Packs** provide dependable refrigerant performance for temperature-sensitive shipping. Designed for medical, food, and logistics applications, they support consistent cold chain protection while remaining easy to handle, store, and integrate into existing packaging programs.

FEATURES

- High-performance refrigerant pack for freezing or refrigeration.
- Non-toxic, Reusable.
- Suitable for helping maintain refrigerated or frozen temperatures for foods and pharmaceutical products.

FEATURES

CONSUMER GRADE

- Made of refrigerant, thermoplastic materials durable, leak-proof plastic design
- Can use for shipping all types of temperature-sensitive goods

DRAIN-FRIENDLY

- Recyclable or disposable
- Robust leak-proof design
- Protects frozen and refrigerated shipments

INDUSTRIAL

- Made with a tough, recyclable polyethylene plastic
- Puncture-resistant and resist tears during rigorous handling
- Non-toxic and food-grade formula

SWEAT-PROOF

- Engineered to stay colder for longer
- Dry ice alternative
- Fabric-covered exterior

REUSABLE COOLING

Can be frozen again after use.

RELIABLE THERMAL PROTECTION

Stays colder for longer than standard ice packs.

LEAK-PROOF PROTECTION

Robust design helps prevent contamination.

SPECIFICATIONS	
Material	Refrigerant thermoplastic gel material
Exterior	Durable, leak-proof polyethylene plastic
Seams	Heat-sealed for puncture and tear resistance
Grades	Available in multiple grades and types
